

Psychology Department: Psychedelics 2018-19

Convenor: Dr. Gulgoona Jamal

The aim of Psychedelics, the Psychology Society is to take learning beyond books. In that spirit, it held several activities throughout the academic session 2018-2019. The first event rightly named as 'Icebreaker' was held on August 13, 2018 exclusively for the freshers to put them at ease. It was followed by their formal welcome with a Fresher's Party on August 31, 2018.

ICAN a non-government organisation which provides palliative care to cancer patients conducted a two-day workshop for the students with an interactive program that included discussion and role play. To enhance the prospects of the final year students, a workshop for career guidance was held on October 5, 2018. It included an informative and interactive session about preparation for entrance exams for getting admission into Post-Graduate courses.

The society also organized a day long inter-college academic festival on 14th March, 2019. The festival opened with a keynote address by the Principal, Dr. Masroor Beg. It was followed by a talk by Dr. Sujata Minhas, a Psychotherapist affiliated with AIIMS. Finally, the society activities for the academic year 2018-2019 came to an end with an emotional farewell party to bid adieu to the outgoing batch on April 03, 2019.

To support the cause of environment conservation, the Psychology Department decided to publish its magazine, entitled, 'Psynapse' as an E-Magazine and has uploaded the same on the college website.

With all its events and activities the society hopes to take its department, which is the oldest department of Psychology in University of Delhi, to new heights in the future.
